TABRIZ TILE GROUP

Energy Saving

Each raw material used, each productive process and each technology of the complex activity of the Tabriz Group sites are studied in order to reduce the environmental impact, by saving recycling, filtering, with the will of transforming the waste in resources and optimize the use of energy. Tabriz TILE Group is on the cutting-edge of adopting ecologically sustainable practices and this is demonstrated by the most accurate controls, repeated on a daily basis.

Low Gas Emissions to Atmosphere

Products commercialized by TABRIZ TILE GROUP meet all the norms required by global manufactured goods, imposed by the global law concerning environmental issues. These legal requirements have encouraged us even further when setting our own international goals; leading to a minimization of any environmental impacts which can derive from our manufacturing process.

Water Recycling From The Production Process

We reuse of the water from our production processes, apply cogeneration to make the most of the energy we use, reintegrate the waste products from each process into our ceramic tiles.

Recycling of Fired Material

TABRIZ TILE GROUP is committed to the principles of ISO 14001-2015 environmental management standards. Green goods production in order to minimize the environmental impacts in their life cycle reduce waste production, and promote environmental culture development is one of the most significant priorities in this industrial group.

OUR COMPANY STORY

Tabriz Tile Industrial Group with more than 29 years of dynamic and continuous activity and using the latest technology and technical knowledge in the world and the use of quality raw materials is known as the largest producer of tile, ceramics and porcelain products in northwest of Iran.

In 2007, this industrial group, as the first and only Iranian manufacturer, started its official partnership with Spanish Company, Keraben, as one of the top European brands. Utilizing the international experiences of a foreign partner along with the capabilities of Iranian experts, strengthened the position of this brand as a leading brand in the ceramic tile industry in the country and also in the region.

Thanks to this official international cooperation and relying on design innovation, using the latest technology in the world, quality products have been provided to domestic consumers. Relying on international knowledge and experience, this industrial group has also recorded the honor of entering the highly competitive global markets especially in developed European and American countries in its resume.

Due to the domestic and international acceptance of products, this industrial group in three phases of development has increased the production capacity and created more variety in products. The result of these measures are the introduction of innovative and quality products to the market under the name of two brands of Kashi Tabriz (Tabriz Tile) and Kergres, which has been welcome by consumers. Also, Tabriz Industrial Group, as the first and only official partner of Iran and Spain in the ceramic tile industry, has attracted the satisfaction of its special customers and consumers by presenting various products with creative designs under the brand name of Kareban. Carrying out research and development processes on products and market research based on customer needs and desires in this industrial group, led to the presentation of different products with special designs under the brand name of Spainker. This brand is presented with a technical and design partnership of "Living Ceramic" group of factories in Spain and again, this industrial group was honored in the field of international interactions. Finally, offering diverse and different products caused the products of this industrial group meet the different needs of customers and consumers at different levels of the market and the customer satisfaction is a constant companion of this group.

Continuous efforts along with targeted investments and utilization of specialized and experienced human resources, has led to numerous awards and honors along with domestic and international standards and certifications for this group.

Due to the importance of environmental protection, Tabriz Industrial Group as its social responsibility has taken effective steps to reduce environmental pollution and also increase the cultural level of mentioned subject in the community to be able to play an effective role in creating a green future in this regard.

Quality and innovation are the top priority of our activities and we always try to achieve the satisfaction of domestic and international consumers and we will certainly not spare any effort in this way.

Наша компания история

Промышленная группа Тебриз плитка с более чем 29-летней динамичной и непрерывной деятельностью, использующая новейшие технологии и технические знания в мире и использующая качественное сырье, известна как крупнейший производитель плитки, керамических и фарфоровых изделий на северо-западе Ирана.

В 2006 году эта промышленная группа, как первый и единственный иранский производитель, начала официальное сотрудничество с компанией Крабен Испания, одним из ведущих европейских брендов. Использование международного опыта иностранного партнера наряду с возможностями иранских специалистов укрепило позиции этого бренда как ведущего бренда в индустрии керамической плитки в стране, а также в регионе.

Благодаря этому официальному международному сотрудничеству и опоре на инновации в дизайне, с использованием новейших мировых технологий отечественным потребителям была представлена качественная продукция.

А также эта промышленная группа опираясь на международные знания и опыт, зарегистрировалась в своем резюме честь выхода на высококонкурентные мировые рынки, особенно в развитые страны Европы и Америки.

Из-за приветствия внутреннему и международному из продуктов, эта промышленная группа на трех этапах развития увеличила производственные мощности и создала большее разнообразие продуктов.

Результатом этих мер является вывод на рынок инновационной и качественной продукции под двумя брендами плитки Тебриз и Кергрес, что было положительно встречено потребителями.

Кроме того, тебриз промышленная группа, как первый и единственный официальный партнерство между Ираном и Испанией в области производства керамической плитки, довольна своими особыми клиентами и потребителями, представив различные продукты с креативным дизайном под торговой маркой Крабен.

Выполнение процессов НИОКР (Научно-исследовательские и опытно-конструкторские работы) по продуктам и исследования рынка на основе потребностей и желаний клиентов в этой промышленной группе привело к презентации различных продуктов со специальным дизайном под брендом Спанкер.

Этот бренд был представлен в техническом и дизайнерском партнерстве с группой испанских керамических заводов "Living ceramic" и был еще один честь в области международных взаимодействий этой промышленной группы.

Наконец, предлагая разнообразные и разные продукты, продукты этой промышленной группы удовлетворяют различные потребности клиентов и потребителей на разных уровнях рынка, а улыбка удовлетворенности клиентов является постоянным спутником этой группы. В связи с важностью охраны окружающей среды, Тебризская промышленная группа в связи с этим, в качестве своей социальной ответственности, предприняла эффективные шаги по снижению загрязнения окружающей среды, а также по культурному продвижению по этому вопросу в социальном пространстве, что может сыграть эффективную роль в создании зеленого будущего.

Качество и инновации являются основой нашей деятельности, и мы всегда стараемся удовлетворить потребности отечественных и международных потребителей, и мы, безусловно, не пожалеем усилий в этом направлении.

Data Sheet

техническая спецификация

- The technical information written on the product package should be read.
 - The product type based on the applied space should be carefully chosen.
 - The shade, model and caliber options on the cartons of the products should be the same.
- One of the tips for the better performance of the products is to pay attention to the correct installation instructions and the following steps.

- Вы должны прочитать техническую информацию, написанную на упаковке продукта.
- Тип продукта должен быть тщательно выбран в соответствии с областью, на которую он будет наноситься.
- Цвет, модель и опции, указанные на упаковке, должны совпадать. Один из советов для повышения производительности продукта тщательно следовать правильным шагам и инструкциям по установке.

Support

- The installation place should be smooth, even and sturdy hard.
- The installation place must be free of dust or dirt.
- Avoid installing the product in very hot or cold temperatures.
- The above conditions are the same for the floor and wall products.

Поддержка

- Место установки должно быть гладким, ровным и иметь герметичную конструкцию.
- Место установки не должно быть загрязнено или запылено.
- Избегайте установки изделия при очень низкой или высокой температуре.
- Вышеуказанные условия одинаковы для напольных и настенных изделий.

Material

- It is recommended that to use the product sections by random selection in the target space.
- If the product has any various different shade or graphics, the random selection and installation is necessary.

Материалы

- Рекомендуется использовать секции продукта диафрагмально в целевой области.
- Если товар разного цвета и формы, необходим случайный выбор и состав.

- The use of filler mortars, tile adhesives and other adhesives should be proportional to the type of purchased product and these should be usable in the interior-exterior spaces, floor-wall surfaces and flat and non-planar surfaces.
- remark: The manufacturer instructions should be read necessarily when installing.

- Использование раствора для затирки швов, клея для плитки и других клеев должно быть совместимо с типом приобретаемого продукта и должно подходить для использования на внутренних и наружных работах, на стенах и полу, на плоских и неровных поверхностях.

- Примечание. При установке необходимо прочитывать инструкции производителя.

Data Sheet

техническая спецификация

- In order to properly install the products, the cross or parallel linings should be used. The cross parallel linings are used for more beautiful installation, where the important technical issues (concerns), the alignment of the products and the prevention of any deformation on wall and floor surfaces should be considered.
- The minimal use of the offered cross linings will help you to make your ceramic installation more comfortable, fascinating and elegant. Therefore, in order to prevent any fault, the following items should be considered:
- Rectified products: at least 2 mm
- Non-rectified products: at least 2 mm
- Rastic products: 3 - 5 mm
- Remark: Regardless of the values written, the compliance with the installation rules of each region (country) is necessary, when the products are installed.

- Для правильной установки продукта необходимо использовать перекрестные или параллельные линии. Пересекающиеся параллельные линии используются для более красивой укладки, при технических проблемах необходимо учитывать соосность изделий и не допускать деформации поверхностей стен и пола.
- Использование минимального количества показанных пересекающихся линий помогает сделать укладку керамической плитки более удобной, очаровательной и элегантной.
- Поэтому во избежание ошибок следует учитывать следующие ресурсы:
- Исправленные продукты: не менее 2 мм
- Неисправленные продукты: не менее 2 мм
- Крупные продукты (сельские): 3-5 мм
- Примечание: Независимо от написанных значений, соблюдение правил установки в каждом регионе (стране) необходимо при установке продуктов.

- Any generated wastage (carton and plastic) should be segregated in appropriate places for recycling.
- Любые полученные отходы (картон или пластик) должны быть отсортированы в специально отведенных местах для переработки.

- For cutting the ceramic pieces, you can use a hand cutter.
- For cutting the harder pieces, you can use the electrical cutter with higher than 1 horsepower with water to cool the machine.
- Для резки керамических изделий можно использовать ручной резак.
- Чтобы больше нарезать более жесткие куски, можно использовать электрический резак мощностью выше лошадиной с водяным охлаждением станка.

- after installation, the maintenance of the products is imperative.
- in order to clean the residuals of soil, cement, bonding powder and cross linings, immediately use the neutral buffer and detergent after installation.
- the use of the neutral detergents for daily cleaning and washing is recommended.
- Avoid the abrasive detergents to clean the decorative sections of the products. the use of the neutral detergents and the certitude for cleaning the third baked products with the different lead, gold, silver coatings etc. are necessary.
- Уход и техническое обслуживание продукта после установки очень важны
- Для очистки от грязи, цемента, связующего порошка и перекрестных линий используйте нейтральный буфер и моющее средство сразу после укладки.
- Для ежедневной стирки и уборки рекомендуется использовать нейтральные моющие средства.
- Избегайте использования абразивных моющих средств для очистки торговых секций изделия, необходимо использование нейтральных моющих средств для очистки трехкратно выпеченных изделий со свинцовым, золотым, серебряным или другим покрытием.
